

Welcome to

DOTTYWOOD COMMUNITY ART

We are community builders, creating [inclusion](#) through innovative arts activities. Our goals are met by developing hands-on opportunities for people to engage directly in the arts and with each other, creating inclusion and bridging community divisions. We are committed to [youth involvement](#), especially youth-directed activities. Projects include art and environmental art classes, lectures, community art mosaic mural and sculpture projects, performances, publications and events.

Appreciation Week](#)

[ART in the PARK](#)

The rich natural history of the Greenbrier River Watershed is the inspiration for this unique community-built labyrinth. The river is represented twice in the 1/10 mile walking path. The central path shows the whole beautiful ribbon of the entire river and each path section represents a portion.

Hundreds of folks pitched in the create the park area, led by Art in the Park, and dedicated in August 2006. The Greenbrier River is an essential part of our community life, it enriches and inspires us. Riverwise Park is an appreciation, a prayer, a poem to the river. We invite you to explore.
